WORK EXPERIENCE

Freelance software developer. January 2022 - Present

Currently on exciting freelance projects with clients globally which is helping me solidify my skills and making me gain valuable experience. (React js, Next js, Node js, Bootstrap, Sass, PostgreSQL, MongoDB, Git and DigitalOcean).

Support Engineer - Unimax Company (Nairobi, Kenya). October 2021 - October 2022

Currently responsible for providing technical support to Equity bank for their Loan Origination System (CLOS) and MyDawa Interactive Voice Response System (IVR) in person and remotely. Giving such assistance means that it's all about problem-solving and having good customer relations.

Software Developer and Digital Marketing - Amazon Cellular (Nairobi, Kenya). June 2020 - December 2021

We implemented an entire e-commerce web app design. The web app was integrated with Google Analytics and Facebook Pixel which were helpful in selling electronics countrywide (Kenya). The admin panel has a content management system to run the e-commerce site and a point of sale system to assist in daily physical shop operations. (Node js, Bootstrap, Sass, MongoDB, Git, and DigitalOcean).

Intern at Kenya Airports Authority (Nairobi, Kenya). May 2019 - January 2020

As a fresh graduate, I got an opportunity to work in a professional environment where I did IT support which involved solving networking, printing, hardware, and software issues. I gained valuable experience and was vital to shaping my career.

EDUCATION

University of Nairobi, BSc Computer Science. September 2016 - March 2020
